Service Workers

For Party goers

I'm Ben

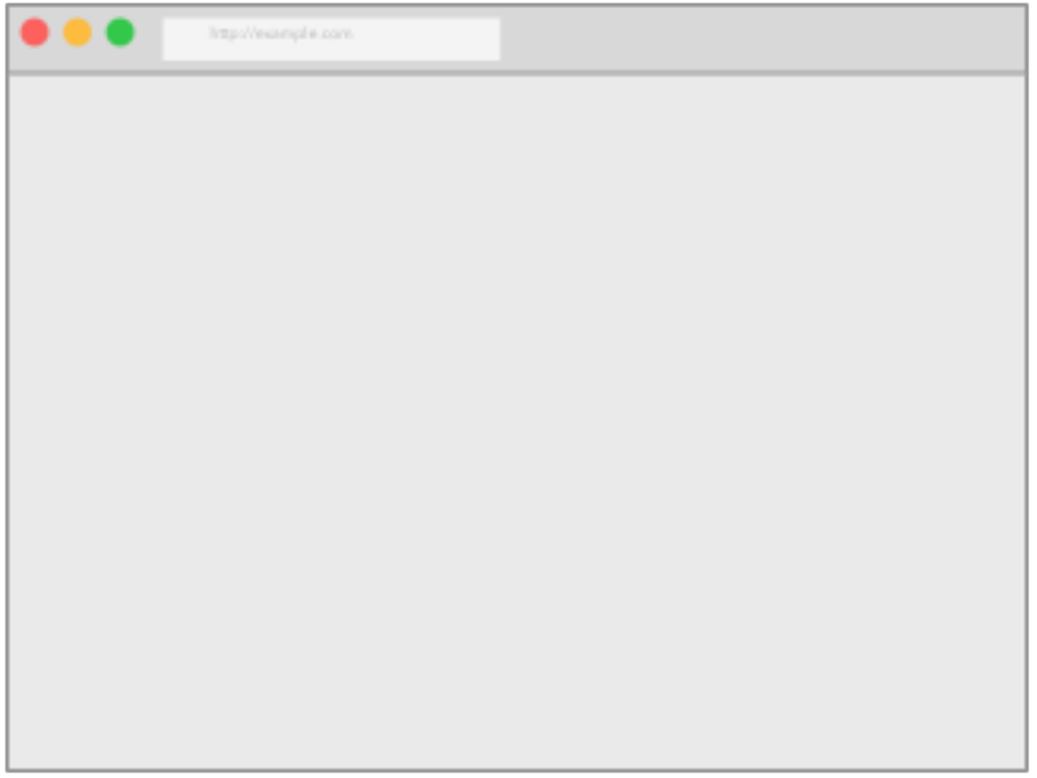
Pusher

We make it easy to add realtime features to your sites and applications

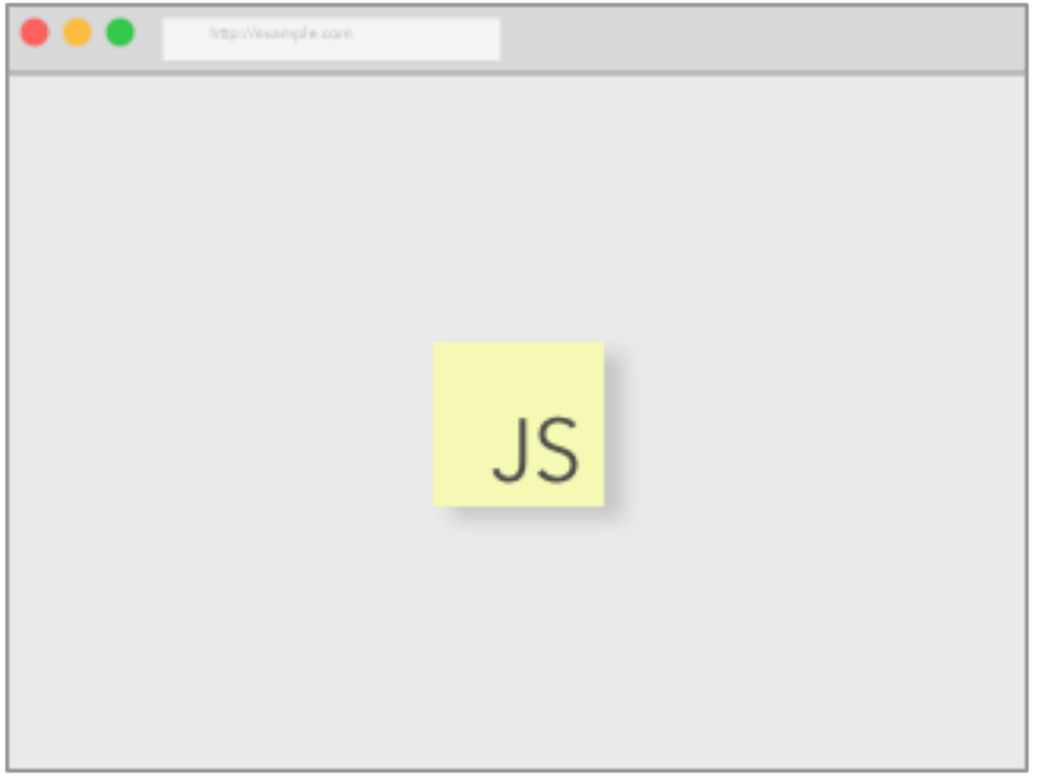
JSOxford

JSOxford ❤️ PHPOxford

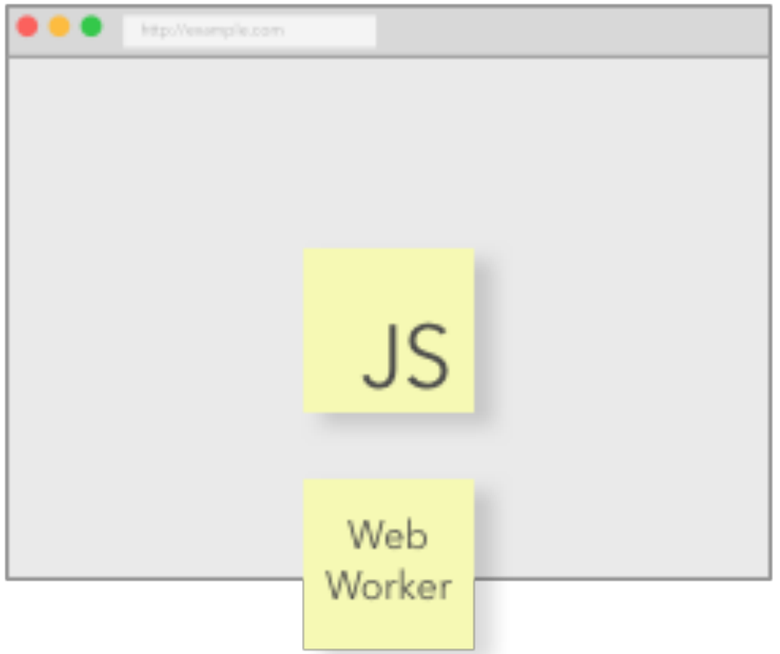
Web Pages



http://example.com



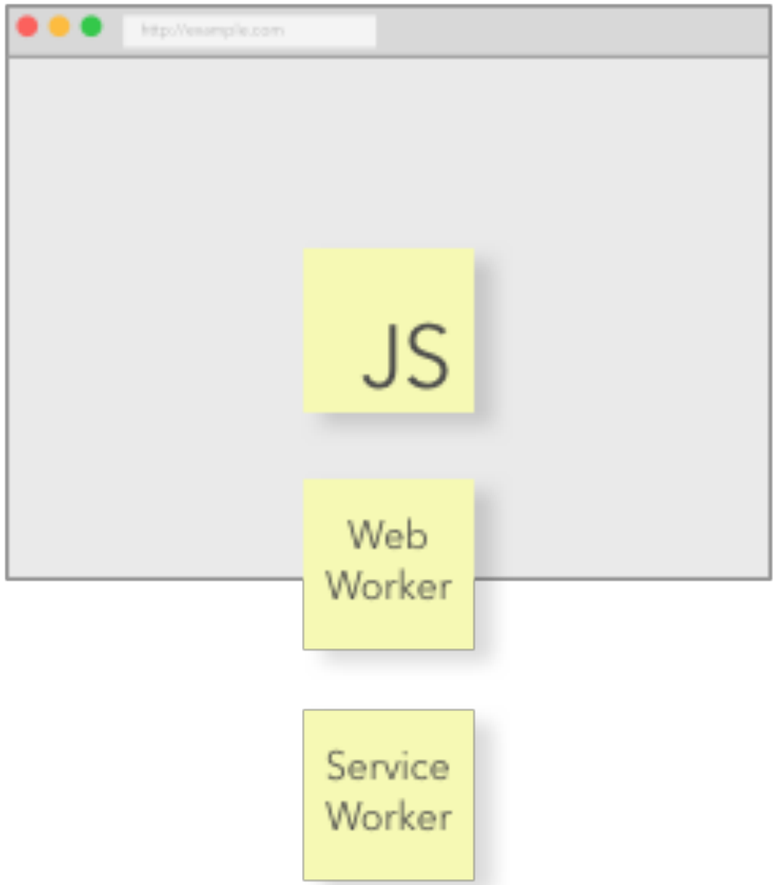
http://example.com
JS



```
var worker = new Worker('/worker.js')

worker.postMessage({
  action: 'how-many-cats',
  data: img
}, [img])

worker.addEventListener('message', m => {
  alert(m + " cats")
})
```



```
navigator.serviceWorker.register('/service-
worker.js')
```

Service Worker

Network Proxy / Cache

Background Sync

Periodic background sync

Push notifications

Where's the party at?

[FRONTEND PARTY?]

Once registered, our frontend code doesn't have to know a Service Worker exists

[LET'S ALL PARTY TOGETHER]

Thanks, I'm
